

Strut Mounted Slide Guide Support Lightweight

Product Description

Designed to allow free axial movement of pipe while restricting lateral or vertical movement. These are purposely designed for quick and easy installation along runs of pipework perfect for intermediate guides where thermal expansion is required. These can be floor or ceiling mounted and are suitable for connections to strut profiles.

Design Features

- Single M10 Connection to pipe clip
- Coated in EP and BZP
- Low Friction movement with "NS Slide Technology"
- Specially designed for use on strut profiles

Part Number	Maximum Travel	Load Vertical (Hung)	Load Vertical (Sat)	Load Lateral
