

Kage Lock Double Dragon Data Sheet

Product Description

An attachment for the Double Dragon Spring Hangers to lock off the unit, engineered to temporarily lock your springs and handle additional loads during transport, installation, and cantilevering pipework during installation stages. When job is complete simply remove it.

Design Features

Built from high grade steel, finished in Electro paint or HDG so suitable for internal or external use.

Locks off spring movement and allows for adjustment upon removal.

Temporary Lock Off - Ideal for modular assemblies that will be transported to site.

Removable Design - Restores full isolation instantly

Applications

- For Ninja Spring Hangers 250kg to 800kg
- Modular construction transport
- HVAC & MEP equipment installation
- Generator and plant room setups.
- Pipe load cantilevering during build stages

Part Number	Load (Kg)	Static Deflection (mm)
DoubleDragon-250-50-BROWN-KL	250	50
DoubleDragon-300-50-BLUE-KL	300	50
DoubleDragon-400-50-WHITE-KL	400	50
DoubleDragon-500-50-BLACK-KL	500	50
DoubleDragon-600-50-PINK-KL	600	50
DoubleDragon-800-50-PURPLE-KL	800	50
